Materials:
Cast polyester resin, varied stuffing

Measurements:
Diameter: 23cm. Height: 30cm.

Product category:
Lighting

Product status:
One off

Short Texts:
Experiments with filtering of light through various materials. From the banal to the bizarre.

Long Texts:
These ten lamps were designed alongside the Campbell Pendant as freehand one-off experiments with materials. Each pendant is 2 cm thick, allowing for the stuffing of all sorts of ingredients. From newly-opened buds from a cherry tree to aluminium leftovers from the Louis Poulsen factory. The pleasure of working so freely within a designed framework was enormous. Designed for the solo exhibition 'Light Studies' for Louis Poulsen.
