Louis Poulsen Lighting A/S
Gammel Strand 28
DK-1202 København K
Tlf. +45 70 33 14 14
Fax +45 33 29 86 69
Email: info@lpmail.com

Materials:
LED light sources, steel and acrylic

Measurements:
Diameter: 15cm

Product category:
Lighting

Product status:
One-off

Short Texts:
Lighting for positioning above a conference table.
An experiment with LED.

Long Texts:
This LED experiment plays with the possibility of free movement of light sources allowed because of lack of wiring. Once one ball is set in motion, it activates the rest as in the original steel tabletop version. The motion activates blue light above. Downlight is always white light. Originally designed for a solo exhibition for Louis Poulsen titled 'Light Studies'
