

Studio Louise Campbell

Product name:

Campbell Pendant

Text:

Campbell pendant is suitable for low-hanging lighting, such as above tables. The gap between the two layers breaks the light, and the sand blasted stripes add a three dimensional effect as well as ensuring that there is no blinding from the light source. The criss-cross positioning of the stripes creates diffuse lighting.
The two layers are separated by magnets.

Year: 2004

Manufacturer: Louis Poulsen Lighting

Materials: Two layers of mouth blown glass - sand blasted

Measurements: D 27cm H 37cm
