Project name:
The More, the Merrier

Text:
A candelabra that is everything but streamlined. As the saying goes: the more elements you join together, the merrier the result. Can be constructed in infinite ways, as the beholder pleases. The design is a blend of the formal and the informal. Crystal like candle holders are made of the softest matt rubber, the garland like arms are pressed in hard-wearing steel and coated. Assembly can be conducted with a sense of meticulous symmetry, or with complete chaos, as you wish. Using 7, 14, 21, 42, 84, 168, 332, 664 elements, according to desire.
